Rural Metro Emergency Management Services, in partnership with Advanced FST and Industrial Fire, offers a complete range of firefighting and rescue vehicles to rent. Our two-tier rental programme will suit your rental requirements and budget.

Our firefighting and rescue vehicles are **available 24/7 and we offer:**

- » Various makes and models to rent
- » Rental agreements, which can include the services of a driver/operator
- » Qualified service technicians, who are on standby for services and repairs
- » Rental periods that range from 6 months to 3 years
- » Full maintenance leases that range from 5 to 15 years (new vehicles)
- » Fleet management solutions for in-service firefighting and rescue vehicles
- » Preventative maintenance programmes for in-service firefighting and rescue vehicles
- » Comprehensive driver/operator training available for all makes and models of firefighting and rescue vehicles

ADVANTAGES

- » Vehicles range from major pumpers to hydraulic platforms and command vehicles
- » Vehicles are in excellent condition (models – 2007 to date)
- » Replacement vehicles are available when vehicles need to be serviced
- » A comprehensive, on-site maintenance programme that forms part of the rental agreement
- » Fully-equipped vehicles available if required
- » All equipment supplied is fully operational and forms part of the maintenance programme
- » Comprehensive training is provided at time of delivery

THE RESULT

- » No more fire stations without firefighting or rescue vehicles
- » No more huge capital outlays to purchase firefighting and rescue vehicles
- » No more mechanical breakdowns or outdated firefighting and rescue vehicles
- » No more waiting periods to acquire new firefighting or rescue vehicles
